SharePoint 2010 Site Owner's Manual Mar 22 2022 Summary SharePoint 2010 Site Owner's Manual teaches you what SharePoint 2010 is all about and how to get started using it. The book also includes step-by-step scenarios for implementing real-world scenarios. You will learn how to build powerful sites leveraging SharePoint's out-of-the-box functionality along with other helpful tools such as InfoPath, Access, and SharePoint Designer. About this Book This book is a guide for business users without programming skills who want to build their own SharePoint sites. With it, you'll learn how to set up document sharing, trackable workflows, and many other business applications. You'll go step-by-step through real-world scenarios like content management, business intelligence, sharing information on the web, and search. Along the way, you'll learn how to interact with other business tools like Access, InfoPath, and SharePoint Designer. This book is designed for SharePoint users who want to become tech-savvy in configuring SharePoint's out-of-the-box functionality. No programming or system administration experience is required. Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book. What's Inside Go from user to power user Build on out-of-the-box features Customize your SharePoint site ===== Table of Contents PART 1 GETTING STARTED WITH SHAREPOINT Leveraging the power of SharePoint A deeper dive into SharePoint capabilities Creating sites using site and list templates PART 2 IMPLEMENTATIONS USING REAL-WORLD SCENARIOS Setting up a document collaboration site Leveraging enterprise content management features Publishing information to the web Empowering users with business intelligence Creating application sites with SharePoint Designer Collecting and managing data by integrating with InfoPath Reporting and web applications using Access Pulling it all together with search, My Sites, and cross-site functionality

America, the Owner's Manual: Making Government Work For You Sep 23 2019 Watch Senator Graham on The Colbert Report! The Colbert Report Mon - Thurs 11:30pm / 10:30c She Said, CIA Said - Bob Graham colbertnation.com Click here to preview chapter 1. Professors: Order your exam copy today by clicking on the &BAD:"Request an Exam Copy&BAD:" link above. Would you teach someone to play basketball using just chalkboard diagrams? Or would you get them on the court and have them play? In basketball, the answer is easy&BAD:—you do both. So why teach politics only as a spectator sport? Senator Bob Graham believes that students should expand on their classroom learning about the political system: he spurs them to hit the court and actually play the game. If students work on an issue they care about, politics will become a meaningful and positive experience. This short, how-to guide takes students out of theoretical discussions of policy and into a world where they can affect change. Graham&BAD:'s goal is to have students identify a problem, and then walk them through each step from researching the issue, to getting others involved, to engaging the media. Each chapter starts with a real case, showing citizens tackling a step in the process, and ends with a summary checklist and a series of questions that help students put Graham&BAD:'s game plan in action. By offering students concrete guidance, an array of resources, and advice for troubleshooting and overcoming barriers, this compact user&BAD:'s guide gets students way beyond textbook learning. Thirty-five years ago, as a member of the Florida Legislature, Bob Graham took on the challenge of civic education for eighteen weeks at a Miami-area high school. His time as both a governor and a senator has only strengthened his resolve to pique students&BAD:' curiosity about politics and teach them to get what they want from government.

Astute Class Nuclear Submarine Oct 24 2019 The Astute-class is the largest, most advanced and most powerful attack submarine ever operated by the Royal Navy, combining world-leading sensors, design and weaponry in a versatile vessel. The submarines are nuclear-propelled and fuelled by a nuclear reactor powerful enough to supply a city the size of Southampton. Its advanced technology means the submarines will never need to be refuelled. They employ the latest technology such as the Sonar 2076 that detects the sound of enemy submarines using the largest number of hydrophones ever fitted to a submarine. Linked with powerful onboard electronics these provide the submarines with outstanding sensitivity. The Astute submarines are armed with the latest versions of Spearfish heavy-weight torpedoes and Tomahawk land-attack cruise missiles.
