The Land of Christ May 12 2021 Palestinians and Israeli Jews live in one land, yet as two distinct communities, each of which claims ownership of the same territory. How are we to understand the divine promise pertaining to the land? Did God promise the land exclusively to the Jewish people? Do the Palestinians have a right to live in the land, or does God want them to leave? After affirming important Palestinian Evangelical concerns, The Land of Christ challenges the argument that God gave the land to Israel. Yohanna Katanacho asks: (1) What are the

borders of the land? (2) Who is Israel? (3) How did God give Israel the land? Through careful biblical exegesis, the book responds to these questions, exposing the superficiality of many slogans and claims. Then the book presents an alternative biblical theology of the land. However, the theology of the land in this book is intimately associated with the context in Israel/Palestine. The Palestinian Kairos Document is the most accepted representative of the current Palestinian context and theology. The book unpacks this document and extrapolates on its theology of the land. Finally, the author does not leave the reader without hope. Katanacho portrays Hagar as a symbol of hope and considers the Korahite Psalms from the perspective of refugees.

Atlantic Bonds May 24 2022 A decade before the American Civil War, James Churchwill Vaughan (1828–1893) set out to fulfill his formerly enslaved father's dying wish that he should leave America to start a new life in Africa. Over the next forty years, Vaughan was taken captive, fought in African wars, built and rebuilt a livelihood, and led a revolt against white racism, finally becoming a successful merchant and the founder of a wealthy, educated, and politically active family. Tracing Vaughan's journey from South Carolina to Liberia to several parts of Yorubaland (present-day southwestern Nigeria), Lisa Lindsay documents this

"free" man's struggle to find economic and political autonomy in an era when freedom was not clear and unhindered anywhere for people of African descent. In a tour de force of historical investigation on two continents, Lindsay tells a story of Vaughan's survival, prosperity, and activism against a seemingly endless series of obstacles. By following Vaughan's transatlantic journeys and comparing his experiences to those of his parents, contemporaries, and descendants in Nigeria and South Carolina, Lindsay reveals the expansive reach of slavery, the ambiguities of freedom, and the surprising ways that Africa, rather than America, offered new opportunities for people of African descent.

He also happens to be running for mayor of New York City. Why do I keep my appointments? I'm tough and belligerently stubborn, but sometimes I don't want to be. I revel in the passion, the desperate need that sets a flame in Chase's deep blue eyes, and the fervent worship of my body that spills from his lips. The awe he finds in every tiny detail of my pleasure is infinitely thrilling. I completely surrender to him, a surrender that requires a great deal of trust. I've

never fully trusted anyone in my life. And I don't know why, but I trust Chase Rutherford. But what is he hiding? As my heart softens and his gazes grow tender, will I finally learn his secret. Will it be unbearable? Will it shatter my heart? Will it be so devastating that it finally breaks this unbreakable woman?

Life Beside Itself Mar 22 2022 In *Life Beside Itself*, Lisa Stevenson takes us on a haunting ethnographic journey through two historical moments when life for the Canadian Inuit has hung in the balance: the tuberculosis epidemic (1940s to the early 1960s) and the subsequent suicide epidemic (1980s to the present). Along the way, Stevenson troubles our commonsense understanding of what life is and what it means to care for the life of another. Through close attention to the images in which we think and dream and through which we understand the world, Stevenson describes a world in which life is beside itself: the name-soul of a teenager who dies in a crash lives again in his friend's newborn baby, a young girl shares a last smoke with a dead friend in a dream, and the possessed hands of a clock spin uncontrollably over its face. In these contexts, humanitarian policies make little sense because they attempt to save lives by merely keeping a body alive. For the Inuit, and perhaps for all of us, life is "somewhere else," and the task is to articulate forms of care for others that are adequate to that truth.

Convention and Innovation in Literature Nov 25 2019

This work is a critical evaluation of the concepts of convention and innovation as applied in the study of changing literary values, hierarchies and canons. Two approaches are analyzed: (1) the linking of convention and the subject's awareness of convention, and (2) systems theory. The merits of both approaches are discussed and an attempt is made to combine them and to regard systems of literary communication primarily as systems of conventions. Specific cases of changing conventions and innovation are illustrated with examples from the field of versification (Rimbaud), reception studies (Pushkin, Goethe, George Eliot), the dichotomy of forgetting/remembering (Nietzsche, Proust), avant-garde, the American dream, and popular genres assimilated in Postmodernism.

The Oxford Handbook of Dietrich Bonhoeffer Dec 19 2021 This volume provides a comprehensive resource

for those wishing to understand the German theologian, pastor, and resistance conspirator Dietrich Bonhoeffer (1906-1945) and his writings. During his lifetime he made important contributions to many of the major areas of theology: ecclesiology, creation, Christology, discipleship, and ethics. The Oxford Handbook of Dietrich Bonhoeffer surveys, assesses, and presents the field of research and debates of Bonhoeffer and his legacy, as well as of previous Bonhoeffer scholarship. Featuring contributions from leading Bonhoeffer scholars, historians, theologians, and ethicists, many essays draw attention to Bonhoeffer's positive contributions, while several essays also identify limits and problems with his thinking as it stands. Divided into five parts, the first section provides a detailed outline of Bonhoeffer's biography and the contexts that gave rise to his theology. The contributors explore the dynamic relationship between Bonhoeffer's life and theology. Section two provides rigorous engagements with and assessments of Bonhoeffer's theology on its own terms. Part three demonstrates how Bonhoeffer's ethical claims and engagements are deeply integrated with theological commitments. The fourth section showcases some of the best work drawing upon Bonhoeffer for engaging contemporary challenges, including feminism, race, public theology in South Africa, and contemporary philosophy. In recent decades, Bonhoeffer's theology

has provoked significant critical reflection on social and cultural issues. The essays in this section exemplify how his writings can continue to contribute to such reflection today. The fifth and final section consists of essays on resources for the contemporary study of Bonhoeffer and his theology, including sources and texts, biographies and portraits, and readings and receptions. These essays also address pressing historiographical issues and problems surrounding writing about Bonhoeffer's life and theology. This authoritative collection draws together and assesses the very best of existing research on Bonhoeffer and promotes new avenues for research on Bonhoeffer.

Adam Ferguson and the Idea of Civil Society Apr 10 2021 Adam Ferguson, a friend of David Hume and Adam Smith, was among the leading Scottish Enlightenment figures who worked to develop a science of man. He created a methodology for moral science that combined empirically based social theory with normative moralising. He was among the first in the English-speaking world to make use of the terms civilization, civil society and political science. Craig Smith explores Ferguson's thought, and examines his attempt to develop a genuine moral science and its place in providing a secure basis for the virtuous education of the new elite of Hanoverian Britain. The Ferguson that emerges is far from the stereotyped image of a republican sceptical about commercial

society and much closer to the mainstream of the Scottish Enlightenment and its defence of the new British commercial order.

Laura Warholic Aug 03 2020 A brilliant satire from one of the great novelists of his time. In his first novel in nearly twenty years, Alexander Theroux, National Book Award Nominee, returns with a compendious satire, a bold and inquisitorial circuit-breaking examination of love and hate, of rejection and forgiveness, of trust and romantic disappointment, of the terrors of contemporary life. Eugene Eyestones, an erudite sex columnist for a Boston cultural magazine, becomes enmeshed in the messy life of a would-be artist named Laura Warholic, who, repulsing and fascinating him at the same time, becomes a mirror in which he not only sees himself but through which he is forced to face his own demons. Not only does she inadvertently supply him with material for his columns, but she exemplifies all that Eugene considers wrong with contemporary America (of which the publishing profession and its recognizable denizens serves as a microcosm) a garish and dunce-filled Babylon that Theroux scorches with inventive and relentless satire. Nostalgic for the old days and old manners, a way of life lost to grace, loving from afar a mysterious beauty named Rapunzel Wisht, Eugene fights against the rising tide of stupidity, focusing on Laura in the hope that by saving her he can

validate his ethical beliefs. But feckless Laura and the colorful but bizarre cast of characters surrounding Eugene brilliant bigots, nihilists, Generation-X slackers and zanies of all sexual persuasion threaten to pull him under, leading to the novel's unforgettable conclusion, a climax of betrayal and redemption of Dostoevskyan power.

Freedom Flyers Dec 27 2019 As the country's first African American military pilots, the Tuskegee Airmen fought in World War II on two fronts: against the Axis powers in the skies over Europe and against Jim Crow racism and segregation at home. Although the pilots flew more than 15,000 sorties and destroyed more than 200 German aircraft, their most far-reaching achievement defies quantification: delivering a powerful blow to racial inequality and discrimination in American life. In this inspiring account of the Tuskegee Airmen, historian J. Todd Moyer captures the challenges and triumphs of these brave pilots in their own words, drawing on more than 800 interviews recorded for the National Park Service's Tuskegee Airmen Oral History Project. Denied the right to fully participate in the U.S. war effort alongside whites at the beginning of World War II, African Americans--spurred on by black newspapers and civil rights organizations such as the NAACP--compelled the prestigious Army Air Corps to open its training programs to black pilots, despite the

objections of its top generals. Thousands of young men came from every part of the country to Tuskegee, Alabama, in the heart of the segregated South, to enter the program, which expanded in 1943 to train multi-engine bomber pilots in addition to fighter pilots. By the end of the war, Tuskegee Airfield had become a small city populated by black mechanics, parachute packers, doctors, and nurses. Together, they helped prove that racial segregation of the fighting forces was so inefficient as to be counterproductive to the nation's defense. Freedom Flyers brings to life the legacy of a determined, visionary cadre of African American airmen who proved their capabilities and patriotism beyond question, transformed the armed forces--formerly the nation's most racially polarized institution--and jump-started the modern struggle for racial equality.
