Don Harris draws upon nearly a quarter of a century of experience as an author and reviewer of research papers, and ultimately as a journal editor. The material in the book is drawn from many years of finding all these things out for himself. "This eBook features 501 sample writing prompts that are designed to help you improve your writing and gain the necessary writing skills needed to ace essay exams. Build your essay-writing confidence fast with 501 Writing Prompts!" -- In addition to a standard first-year legal writing curriculum, most law schools now require upperlevel students to write a sophisticated legal research paper on a topic of their choice. Students often struggle through the scholarly writing process, from finding a topic to polishing a final paper, and many never fully develop and defend a thesis. Scholarly Writing: Ideas, Examples, and Execution offers a lifeline to students, guiding them through the process of constructing their legal research papers from start to finish. With over 10 years combined experience teaching scholarly writing to J.D. and LL.M. students, the authors identify common roadblocks for student writers, and offer advice and techniques for how to successfully overcome these roadblocks. The book walks students through a five-step process for researching and writing scholarly papers and follows five published student papers from idea to final execution as a method of illustrating the principles advocated in the text. This example-based approach sets this book apart from others; the authors not only tell students how to approach their papers, but through annotated excerpts of example papers, they show students how to approach their papers. The book includes up-to-date information about legal research and organizational tools. It also includes "bright ideas" that supplement the text with ideas and examples for student writers. The text may be used as either a required text for a course in Scholarly Legal Writing or a companion guide for students working on scholarly legal writing projects independently. The Writing Template Book provides numerous examples and practice exercises on writing summaries, thesis sentences, introductions, conclusions, and the bodies of typical essays and papers. Templates are an effective tool for improving performance on standardized tests like the TOEFL® and the SAT®. Writing templates can enhance students' scores on standardized tests by providing them with a structure that conforms to grading criteria. Students who are able to apply even a portion of the template to their essays will perform at a higher level than if they had not used templates. This book is a result of the investigative attempts of linguistics professionals to identify and meet the challenges of developing communicative competence in future engineers, economists and other such specialists. The unifying feature of all the contributions brought together here is the active involvement of the authors in practical instruction of English for specific professional purposes at the tertiary (bachelors' and masters' programs) level in Russia. This volume covers a number of relevant areas in this field, including new developments in methodology, approaches to course and materials design, and the contribution of language theory to foreign language teaching in a professional context. The unique teaching approach advocated in this book denounces the traditional practice of transferring classical methodology of communicative-oriented teaching to language classes for students with a non-linguistic or non-teaching professional orientation. The underlying idea of this volume is that a change in professional context implies a change in language teaching methodology, including materials, techniques and target competences.*

The ideas and experiences analysed here will appeal to anyone interested in the current trends in foreign language teaching and learning and particularly to educationalists. You'll quickly learn how to: Select and narrow your topic Evaluate and present evidence persuasively Avoid plagiarism and other novice mistakes Learn from examples, sample papers, and model documentation 'Toni Morrison was the lodestar who inspired us' Bernadine Evaristo Twyla and Roberta have known each other since they were eight years old, when they were thrown together as roommates in a girls' shelter. Inseparable then, they lose touch as they grow older, only to meet again later at a diner, a grocery store and then at a protest. The two women are seemingly at opposite ends of every problem but, despite their conflict, the deep bond their shared experience has forged between them is undeniable. Recitatif keeps Twyla's and Roberta's races ambiguous throughout the story. We know that one is white and one is black, but which is which? And who is right about the race of the woman the girls tormented

at the orphanage? This story is a masterful exploration of what keeps us together and what keeps us apart, of race and the relationships that shape our lives. Now with a new introduction by Zadie Smith, it is as radically compelling and relevant today as it was when first written nearly forty years ago. 'Toni Morrison is the greatest chronicler of the American experience that we have ever known' Tayari Jones 'Her work is an act of giving her community back to itself, so that people - African-Americans but the diaspora as well - can see and witness themselves' Diana Evans
