Absolute Beginner's Guide to Home Networking Dec 28 2019 Finally, there is a guide to home networking that was written for true beginners! The Absolute Beginner's Guide to Home Networking goes far beyond traditional printer or Internet sharing and is geared to help you understand home network types and concepts, install, configure and interconnect various types of wired and wireless networks. This easy-to-understand guide will help you achieve the desired goals of entertainment, information access and home security control with Windows, MacOS and Linux-based systems. Soon you will learn to share and enhance entertainment and even integrate business network hardware with a home network to exploit telecommuting, work-from-home and remote education opportunities.

Prophecy Girl May 13 2021 Some prophecies are downright deadly... Amelie Bennett. . . Ending the world, one prophecy at a time.I was born to slay Crossworld demons.Big black flappy ones, little green squirmy ones. Unfortunately, the only thing getting slain these days is my social life. With my high school under attack, combat classes intensifying, and Academy instructors dropping right and left, I can barely get my homework done, let alone score a bondmate before prom.Then he shows up.Jackson Smith-Hailey. Unspeakably hot, hopelessly unattainable, and dangerous in all the right ways. Sure, he's my trainer. And okay, maybe he hates me. Doesn't mean I'll ignore the wicked Guardian chemistry between us. It's crazy! Every time I'm with him, my powers explode. Awesome, right?Wrong.Now my teachers think I'm the murderous Graymason destined to bring down our whole race of angelbloods. Everyone in New Orleans is hunting me. The people I trusted want me dead. Jack and I have five days to solve the murders, prevent a vampire uprising, and thwart the pesky prophecy foretelling his death by my hand. Shouldn't be too difficult.Getting it done without falling in love. . . that might take a miracle. Each book in the Angel Academy series is a standalone, full-length story that can be enjoyed out of order. Series Order: Book 1: Prophecy Girl Book 2: Conspiracy Boy

Applied Cryptography and Network Security Workshops Dec 08 2020 This book constitutes the proceedings of the satellite workshops held around the 19th International Conference on Applied Cryptography and Network Security, ACNS 2021, held in Kamakura, Japan, in June 2021. The 26 papers presented in this volume were carefully reviewed and selected from 49 submissions. They stem from the following workshops: AIBlock 2021: Third International Workshop on Application Intelligence and Blockchain Security AIHWS 2021: Second International Workshop on Artificial Intelligence in Hardware Security AIoTS 2021: Third International Workshop on Artificial Intelligence and Industrial IoT Security CIMSS 2021: First International Workshop on Critical Infrastructure and Manufacturing System Security Cloud S&P 2021: Third International Workshop on Cloud Security and Privacy SCI 2021: Second International Workshop on Secure Cryptographic Implementation SecMT 2021: Second International Workshop on Security in Mobile Technologies SiMLA 2021; Third International Workshop on Security in Machine Learning and its Applications Due to the Corona pandemic the workshop was held as a virtual event.

Digital Video Recorders May 01 2020 Four specific trends are driving the DVR industry: consumer content choice, consumer content control, personalization of content libraries, and the ability to transfer content from device-to-device and person-to-person. "Digital Video Recorders" features a macro and micro views of the already established yet still burgeoning DVR industry. As part of the NAB Executive Technology Briefing series, this book gives you a wealth of market knowledge, business models, case studies, and industry insights explained in a non-technical fashion. "Digital Video Recorders" discusses the impact of the technology across many different industries and platforms, explains hardware, software and technology of set-top boxes, DVR infrastructure, on-screen guides, planning and scheduling, content security, and more. Whether you are an executive in the broadcast, telecommunications, consumer electronic, or advertising space, you will expand your knowledge on DVR impact, explore new business opportunities, and get a brief overview of the technical terms needed. You will also be able to accurately analyze and understand the trends, projections and other data, all of which will help lead to the expedited growth and development of DVR industry.

IMDC-IST 2021 Sep 04 2020 This book contains the proceedings of the Second International Conference on Integrated Sciences and Technologies (IMDC-IST-2021). Where held on 7th-9th Sep 2021 in Sakarya,

Turkey. This conference was organized by University of Bradford, UK and Southern Technical University, Iraq. The papers in this conference were collected in a proceedings book entitled: Proceedings of the second edition of the International Multi-Disciplinary Conference Theme: "Integrated Sciences and Technologies" (IMDC-IST-2021). The presentation of such a multi-discipline conference provides a lot of exciting insights and new understanding on recent issues in terms of Green Energy, Digital Health, Blended Learning, Big Data, Meta-material, Artificial-Intelligence powered applications, Cognitive Communications, Image Processing, Health Technologies, 5G Communications. Referring to the argument, this conference would serve as a valuable reference for future relevant research activities. The committee acknowledges that the success of this conference are closely intertwined by the contributions from various stakeholders. As being such, we would like to express our heartfelt appreciation to the keynote speakers, invited speakers, paper presenters, and participants for their enthusiastic support in joining the second edition of the International Multi-Disciplinary Conference Theme: "Integrated Sciences and Technologies" (IMDC-IST-2021). We are convinced that the contents of the study from various papers are not only encouraged productive discussion among presenters and participants but also motivate further research in the relevant subject. We appreciate for your enthusiasm to attend our conference and share your knowledge and experience. Your input was important in ensuring the success of our conference. Finally, we hope that this conference serves as a forum for learning in building togetherness and academic networks. Therefore, we expect to see you all at the next IMDC-IST.

9th Computer Networking Conference Jan 27 2020

Invitation to Computer Science Apr 11 2021 Discover a contemporary overview of today's computer science with Schneider/Gersting's best-selling INVITATION TO COMPUTER SCIENCE, 8E. This flexible, non-language-specific approach provides a solid foundation in computer science using an algorithm-centered approach that's ideal for the reader's first introduction to the field. Measurable learning objectives and an easy-to-follow hierarchy guide readers through algorithms, hardware, virtual machines, software development, applications of computing, and social issues. Readers connect the dots as the book emphasizes real-life context throughout each chapter. Updates introduce the latest developments concerning privacy, drones, cloud computing, and net neutrality. Visual and hands-on activities let readers experience the fundamentals of today's computer science. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Buying Curve Oct 06 2020 Sales is an industry that has evolved from the simple wheel to today's myriad of products or services camouflaged with features, benefits and fluff, led by stellar group of brand name companies. If you are new to sales, frustrated with your current career in sales because of inconsistent numbers or are an old dog that needs a new (proven sales pitch), this really is the only book you will EVER need to unlocking a rewarding career in sales, not just from a production stand point but also by understanding the complete process of the Buying Curve. The book is split into four parts - The Sale, nine steps of the sales process, delivered in an easy to follow and read format. Most importantly what will increase your sales without effort, in fact easier than what you are currently doing. If you are new to the industry it will insure you get off to the right start with a solid and proven way to make you a top sales person no matter what type of industry you are working in. If you are looking to refresh your old style, look no further this book will take you from [snail mail] to [email and social media]. The second part - No Sale - takes a light hearted, but real look at the mistakes we make when we are not selling and the impact it has on us (a must read for all). The third section, How do we really fix what went wrong in our sales pitch? The last section, Coming Full Circle relates to what is needed in selling to today's media savvy prospect who know their options, that shop around with a touch of a smart phone or mouse click, and how they become your greatest asset or your downfall.

Handbook of Digital Forensics of Multimedia Data and Devices, Enhanced E-Book Oct 30 2022 Digital forensics and multimedia forensics are rapidly growing disciplines whereby electronic information is extracted and interpreted for use in a court of law. These two fields are finding increasing importance in law enforcement and the investigation of cybercrime as the ubiquity of personal computing and the internet becomes ever-more apparent. Digital forensics involves investigating computer systems and digital artefacts in general, while multimedia forensics is a sub-topic of digital forensics focusing on evidence extracted from both normal computer systems and special multimedia devices, such as digital cameras. This book focuses on the interface between digital forensics and multimedia forensics, bringing two closely related fields of forensic expertise together to identify and understand the current state-of-the-art in digital forensic investigation. Both fields are expertly attended to by contributions from researchers and forensic practitioners specializing in diverse topics such as forensic authentication, forensic triage, forensic photogrammetry, biometric forensics, multimedia device identification, and image forgery detection among many others. Key features: Brings digital and multimedia forensics together with contributions from academia, law enforcement, and the digital forensics industry for extensive coverage of all the major aspects of digital forensics of multimedia data and devices Provides comprehensive and authoritative coverage of digital forensics of multimedia data and devices Offers not only explanations of techniques but also real-world and simulated case studies to illustrate how digital and multimedia forensics techniques work Includes a companion website hosting continually updated supplementary materials ranging from extended and updated coverage of standards to best practice guides, test datasets and more case studies

Demonic Household: See Owner's Manual Jun 25 2022 Readers Beware of those appliances! You are traveling into a dark and humorous place. We start you off with light, soft stories, but be warned. With each passing page, you will find yourself falling into the ever darker, gorier, and more demonic. We're not responsible for any out of warranty or straight-from-hell defective items. By the end of this collection, you will never look at your couch, your washer, and even television the same way. It will leave you to wonder if you should be laughing anymore. Will your household turn on you? Keep your Owner's Manuals close by!

Work Worth Doing Jul 03 2020 President Theodore Roosevelt once said, "Far and away the best prize that life offers is the chance to work hard at work worth doing." This quote is not only the source from which the title was borne, but also the philosophical approach toward TBI rehabilitation embraced by the 26 rehabilitation experts who wrote *Work Worth Doing: Advances in Brain Injury Rehabilitation*. This important, and possibly controversial, book of issues and methods addresses the full spectrum of vocational rehabilitation activities. Independent living, treatment generalization, criteria for evaluating TBI rehabilitation facilities, family involvement issues, and an entirely new perspective on the TBI rehabilitation industry are discussed.

Writing and Designing Manuals and Warnings 4e Jun 01 2020 Twenty-five years ago, how many people were thinking about the internet on a daily basis? Now you can find everything, including technical and instruction manuals, online. But some things never change. Users still need instructions and warnings to guide them in the safe and proper use of products. Good design, clear instructions and warnings, place The Baby Owner's Manual Feb 19 2022 At Last! A Beginner's Guide to Newborn Baby Technology You've programmed your DVR, you've installed a wireless Internet connection, you can even check Facebook on your cell phone. But none of this experience will prepare you for the world's biggest technological marvel: a newborn baby. Through step-by-step instructions and helpful schematic diagrams, The Baby Owner's Manual explores hundreds of frequently asked questions: What's the best way to swaddle a baby? How can I make my newborn sleep through the night? When should I bring the baby to a doctor for servicing? Whatever your concerns, you'll find the answers here—courtesy of celebrated pediatrician Dr. Louis Borgenicht and his son, Joe Borgenicht. Together, they provide plenty of useful advice for anyone who wants to learn the basics of childcare.

So Why Do I Care? Management, Marketing, and Innovation Insights for a Changing World Aug 04 2020 There is a lot happening in today's business world and it is easy to get overwhelmed buy the sheer volume of information. The question that we often find ourselves asking is So Why Do I Care? But is this a subject worthy of a book? Tom Coughlan, graduate business instructor, serial entrepreneur, and doctoral student often finds himself pondering these questions. They bothered him so much he started a blog to explore them. Tom Coughlan's blog (www.tomcoughlan.com) is about Tom's observations of modern Business Innovation, Management, Value, Massge Development, Branding, and any other odd topic that might have struck Tom's blogging soul. This book is a collection of writings from Tom's blog.

Veterinary Computed Tomography Nov 06 2020 This practical and highly illustrated guide is an essential resource for veterinarians seeking to improve their understanding and use of computed tomography (CT) in practice. It provides a thorough grounding in CT technology, describing the underlying physical principles as well as the different types of scanners. The book also includes principles of CT examination such as guidance on positioning and how to achieve a good image quality. Written by specialists from twelve countries, this book offers a broad range of expertise in veterinary computed tomography, and is the first book to describe the technology, methodology, interpretation principles and CT features of different diseases for most species treated in veterinary practice. Key features • An essential guide for veterinarians using CT in practice • Includes basic principles of CT as well as guidelines on how to carry out an effective examination • Describes CT features of different diseases for most species treated in practice • Written by a range of international leaders in the field • Illustrated with high quality photographs and diagrams throughout

Mastering the Nikon D850 Feb 07 2021 *Mastering the Nikon D850* by Darrell Young provides a wealth of experience-based information and insights for owners of the new D850 camera. Darrell is determined to help the user navigate past the confusion that often comes with complex and powerful professional camera equipment.

This book explores the features and capabilities of the camera in a way that far surpasses the user's manual. It guides readers through the camera features with step-by-step setting adjustments; color illustrations; and detailed how, when, and why explanations for each option. Every button, dial, switch, and menu configuration setting is explored in a user-friendly manner, with suggestions for setup according to various shooting styles.

Darrell's friendly and informative writing style allows readers to easily follow directions, while feeling as if a friend dropped in to share his knowledge. The information in this book goes beyond the camera itself and also covers basic photography technique.

Windows 10 Sep 24 2019 "Microsoft's last Windows version, the April 2018 Update, is a glorious Santa sack full of new features and refinements. What's still not included, though, is a single page of printed instructions. Fortunately, David Pogue is back to help you make sense of it all—with humor, authority, and 500 illustrations."--Page 4 of cover.

Preaching that Matters Mar 30 2020 Listeners do love their pastors and they agree with the sermon content they hear,' Lori Carrell once explained to a group of pastors, 'but most sermons don't ask for change, and most listeners don't experience spiritual growth as a result of the sermon.' A participant responded: 'Let's get practical. I want my preaching to make a difference. What changes are worth making, and how do I make them?' In *Preaching that Matters*, Lori Carrell shares answers to that question, drawing on the experiences of thousands of people—preachers and their listeners—whose effort she has studied over many years. In each chapter of this book, she offers research revelations about high impact preaching that will encourage and challenge readers to continue to grow as preachers. She then links these principles with Reflective Practice Challenges (RPCs), exercises that honor the rich experiences of pastors while opening opportunities for self-analysis, spiritual introspection, conversation with a trusted other, or implementation of research-based preaching recommendations. The activities have been used by hundreds of other pastors, and each RPC has been carefully selected for its demonstrated contribution to the process of transforming sermon communication. A selection of the RPCs are available as a downloadable file. E-mail resourcematerial@rowman.com for more information. As a communication expert, Carrell approaches preaching from a 'sermon communication' paradigm. She begins with the task of identifying the spiritually transformative purpose of the sermon and then explores exegeting, organizing, deepening, and delivering the sermon, as well as listening to the listeners and planning for continued transformation. Her own goal is simple: to inspire and equip clergy to make changes that will enhance the transformative power of their preaching. To connect with others reading *Preaching That Matters* and to find an online accountability partner, join the book's Google+ communities.

Shooter's Bible Guide to Home Defense Aug 23 2019 Provides advice on how to evaluate the vulnerable points in a home, fortify the property discreetly, select security systems, choose weapons and use them under stress, and interact safely with aggressors.

Proceedings of the 3rd International Symposium of Information and Internet Technology (SYMINTech 2018) Aug 28 2022 This book gathers the proceedings of a symposium on the role of Internet technologies and how they can transform and improve people's lives. The Internet is essentially a massive database where all types of information can be shared and transmitted. This can be done passively in the form of non-interactive websites and blogs; or it can be done actively in the form of file sharing and document up- and downloading. Thanks to these technologies, a wealth of information is now available to anyone who can access the Internet. Moreover, Internet technologies are constantly improving: growing faster, offering more diverse information, and supporting processes that would have been impossible in the past. As a result, they have changed, and will continue to change, the way that the world does business and how people interact in their day-to-day lives. In conclusion, the symposium and these proceedings provide a valuable opportunity for leading researchers, engineers and professionals around the globe to discuss the latest advances that are helping the world move forward. They also facilitate the exchange of new ideas in the fields of communication technology to create a dialogue between these groups concerning the latest innovations, trends and concerns, practical challenges and potential solutions in the field of Internet technologies.
